Eucharist

Jesus' friends need to get together to celebrate the Eucharist! Can we live without food and drink? Can we live without God's love and joy?

Christians remember Jesus in a special way in the Eucharist – they become aware of his real presence among them today. His death and resurrection are their hope today – Jesus the Christ is the light of their lives. Today, celebrating the Eucharist together means entering into Jesus' life. It means walking along the difficult path with him and accepting to be broken and poured out for the joy of the world. In the Eucharist we are strengthened to be "Christian" – another Christ.
